

Standards and Frameworks: what is the difference?

As part of the Government's apprenticeship reform programme all Apprenticeship Frameworks will be phased out by the start of the 2020/2021 academic year. Instead, new Apprenticeship Standards are being introduced. Apprenticeship Standards are focussed on quality learning with a single End Point Assessment, and are developed by the employers and industry experts, in conjunction with the Institute for Apprenticeships and Technical Education.

What's a Level?

Apprenticeships start from an intermediate Level 2 (equivalent to four/five GCSEs at A* to C/9-4), right up to Levels 6 and 7 (equivalent to a degree). Degree apprenticeships allow the apprentice to work towards a degree as part of the apprenticeship itself. Each level typically has different entry requirements, depending on the employer, so you can see which one is best for you.
